MedWand Solutions, Inc. to Exhibit at the Healthcare Information and Management Systems Society (HIMSS) for the First Time

Experience the Future of High Utility Telehealth, Booth #6629

April 17-21, 2023, at McCormick Place in Chicago

(Rancho Santa Margarita, CA and Las Vegas, NV) April 10, 2023 – For the first time ever, [MedWand Solutions, Inc.](https://www.medwand.com) is pleased to announce the company will exhibit and showcase the latest developments of its award-winning vitals capture and telehealth platform at the annual Healthcare Information and Management Systems Society (HIMSS23). Taking place April 17-21 in Chicago, MedWand Solutions will be both on the show floor at booth #6629 and available virtually within a digital booth experience.

The MedWand team plans to showcase its latest solutions for clinically accurate remote patient evaluation at HIMSS23. Attendees can experience MedWand's comprehensive VirtualCare telemedicine platform, which breaks down geographical barriers and staffing barriers, helping to increase staffing efficiency and improve access to quality healthcare.

"We look forward to exhibiting at HIMSS for the first time and showcasing some new partnerships and integrations," shared Robert Rose, MedWand President & CEO. "As a company dedicated to advancing the future of virtual healthcare, we are thrilled to invite HIMSS attendees to explore how MedWand can help enhance practices, lower costs, improve health equity, and, most importantly, save lives."

In addition to the MedWand booth, a MedWand device will also be on display at the AT&T booth. This comes following the ground-breaking announcement of the Urban Rural Healthcare

Alliance during CES earlier this year. With support from collaborating companies including **AT&T**, **HP**, and **Oracle**, MedWand aims to break down geographical and staffing barriers to increase the efficiency and equity of healthcare provision in underserved rural and inner-city communities.

Demonstrations, meetings, and informational sessions will be available daily at the MedWand booth, 6629. Appointments and prior reservations are encouraged and can be arranged through [this link](#), or by contacting the company directly.

MedWand and its associated VirtualCare telemedicine platform were created by a team of physicians and medical device engineers to enhance the quality and accessibility of digital healthcare services for clinicians and patients, regardless of physical location. The company offers the MedWand device and VirtualCare software for multiple applications that include hospitals, field clinics, nursing homes, schools, and workplaces.

When patient care depends on telemedicine, choose MedWand. To schedule a demonstration or to request product quotation please contact MedWand at www.medwandhealth.com/contact For more information visit www.medwandhealth.com.
