**(Las Vegas, NV) December 28, 2022** – Leading the way in delivering digital healthcare technologies for clinicians and patients, [MedWand Solutions](https://www.medwand.com) is busily preparing for the company’s most innovative trade show display to date for the upcoming **2023 Consumer Electronics Show (CES)**, the world’s largest technology trade show, January 5-8, 2023 in Las Vegas.

A 2023 CES Innovation Award Honoree, MedWand will showcase the latest developments of its award-winning, US FDA 510(k)\* cleared device and software platform by transporting attendees to different physical locations via interactive telemedicine pods, live remote examinations, and educational presentations daily - from their 2,500 square foot booth located in North Hall of the Las Vegas Convention Center.

“CES is the largest and most anticipated event in the tech space, and we are excited to reveal the latest developments in MedWand capabilities and our integration into the broader medical

ecosystem at this year's show," shared Robert Rose, MedWand President & CEO. "As a company dedicated to advancing the future of digital healthcare, we are honored to invite CES attendees to explore how MedWand can help enhance practices, lower costs, improve health equity, and save lives."

MedWand's cutting-edge and interactive booth will be filled with the latest tech, robots, and installations. Attendees are sure to line up to experience the four massive, interactive pods taking individuals on a journey to different remote locations. Surrounded by three giant screen TVs with a MedWand device in hand, attendees can find themselves in distant locations like on board a ship, or in a nursing home, to experience how MedWand can truly deliver clinical care from anywhere.

A presentation stage located at the center of the booth will include seating for daily 'MedTalk' presentations on current healthcare and digital health trends. 'MedTalks' will be hosted every other hour with different MedWand experts, including MedWand's newest VP of Clinical Quality and Integration, Michael M. Kurliand, MS BSN RN-BC. The MedWand booth will also feature a giant, touchscreen video game custom made for MedWand and debuting for attendees at CES 2023. Attendees can also experience live demos of a remote health exam with a patient located in a different state, and so much more.

On opening Day of CES, **Thursday, January 5th at 3:30pm**, MedWand will host a **press conference at MedWand's** presentation stage (**Booth #8725**) to announce the launch of a ground-breaking technical program developed with the assistance of major collaborating partners. To RSVP for the press conference please contact MedWand's PR Director Tori (Victoria) Elder at [Velder@medwand.com](mailto:Velder@medwand.com).

MedWand's executive team will attend CES 2023 and analysts are invited to schedule a meeting with them to learn more about the company and its products in the Digital Health Sector at **booth #8725** in the North Hall of the Las Vegas Convention Center. Please contact [Ahowa@medwand.com](mailto:Ahowa@medwand.com) or [Velder@medwand.com](mailto:Velder@medwand.com) to schedule a meeting.

When patient care depends on telemedicine, choose MedWand. To schedule a private demonstration or to request a formal product quotation please contact MedWand at [www.medwand.com/contact.html](http://www.medwand.com/contact.html). For more information on MedWand visit [www.medwand.com](http://www.medwand.com).

\*Electrocardiogram feature is available in select countries, currently awaiting US FDA 510(k) clearance.
